Road Name where frontage of property or driveway intersects with a named public or private road			
New Driveway Existing	Driveway		
If this is an existing driveway please give descriptionGateGraveledField Driveway Other Description			
Length of Driveway from its intersection How many residents are using this road?	with state and county roads		
Will there be additional roads added off this driveway?			

The driveway must be established before an address can be provided for the residence or other buildings. Driveways should be approved by the County Engineer Or Iowa D.O.T.

The following requirements are a part of the Allamakee County Addressing Ordinance and the Allamakee County Zoning Ordinance. The road standards were established to ensure the safe ingress and egress of emergency vehicles.

Roadway Width and Turn-A-Round All access driveways or access easements serving one(1) or more principal structures shall be constructed and maintained to a minimum twenty-two (22) feet width traveled way and base material depth sufficient to support access by emergency vehicles, with a minimum sixty-six (66) feet right of way width, in compliance with Ordinance IX-Rural Addressing and the Zoning Ordinance for Allamakee County, Iowa. All access driveways or access Easements in excess of two hundred (200) feet in length from its intersection with a public road to a principal structure shall provide an eighty (80) feet diameter turnaround at the end of the access for emergency vehicles.

Easing of the requirements of this section as set out above may be granted without seeking a variance from the Board of Adjustments by the applicant submitting a site plan prepared by a professional engineer licensed in the State of Iowa certifying the proposed access drive and access design to be safe for E-911 vehicles ingress and egress, even though the proposed certified design may be narrower than twenty-two (22) feet access, with appropriate turnouts, , and/or other safety provisions as incorporated within the proposed certified design, all to be reviewed by the County Engineer and E-911 Coordinator at a Plat Review Committee Meeting.

It is the responsibility of the landowner to provide and maintain a road accessible to emergency vehicles. The Emergency Responders will not be liable if the landowner does not develop and maintain a road to provide safe ingress and egress for Emergency Vehicles.

The Engineer's Office <u>will</u> be contacted concerning all new driveways for which you are requesting an address. If it is an existing driveway, written confirmation from the Engineer's Office will be sought which states that the driveway in an approved access. If you wish to contact the Allamakee County Engineer Office: (563) 568-4574.
